

800-TAX REFUND, Inc.
a better way...

Why File Electronically?

Because Electronic Filing is more accurate and results in a faster refund. Priority tax returns are processed by 800-TAX REFUND within 24 hours: they are computer-checked for errors, then date/time stamped by IRS, verifying that your tax return has been accepted and your refund is on its way!

How Is It Done?

First, to have your refund(s) direct-deposited, you must include your bank information in the designated area on your Federal Form 1040. If you do not want direct deposit, checks by mail take an extra five days to receive. Next, complete the Authorization Form on the following page, including your payment option, and fax the form with your tax information to us at (800) 794-8851.

You can also securely upload your tax documents to us by visiting [this site](#) or by sending your documents to us by [secure email](#).

NOTE: IRS did not publish a Refund Cycle Chart for the current tax season, instead advising taxpayers to check the "Where's My Refund?" link at www.irs.gov for an individualized refund deposit date.

"Where's My Refund?" includes a tracker that displays your tax return's progress through three stages:

1. Return Received
2. Refund Approved
3. Refund Sent

Return progress can be updated by IRS on a daily basis instead of weekly as in prior years, and the Refund Sent date will be actual instead of estimated.

Overall acceptance-to-deposit timeframe is expected to be similar to past years in which direct deposit refunds (that were not pulled for review) were received 7 to 14 days after acceptance, faster for simpler returns.

Frequently Asked Questions:

• Which States can you e-file?

We can e-file all States that have an income tax, and there's no extra charge for (one) State e-file if you fax your State tax return along with your Federal return. Extra charges (\$15 each) apply for multiple States. Most States now accept the Federal e-file Signature Authorization (following page) as the e-file authorization for their state. We will advise you if your state requires a separate authorization form.

• Is my refund guaranteed to be on time?

Make sure you read the "Electronic Filing Precautions" on the Authorization Form for situations which may delay or offset your refund. We've seen some returns (under 5%) delayed a week by IRS for a "compliance review." We guarantee our work: if we make a mistake which results in a delay on your refund, we will reimburse our filing fee.

• What if there's an error on my tax return?

We'll call you if the error is a simple one that can be resolved over the phone. IRS regulations prohibit us from changing your refund by more than \$14.00 without your consent. If the errors are too extensive to resolve over the phone, we have the option of mailing the return back to you with a description of the errors. You would then be required to submit a corrected tax return to us, or forfeit the filing fee.

• When is the fee debited from my bank account?

Should you choose this option, expect your account to be debited the \$42.95 fee about 2 or 3 days after we process your return.
